Financing Entrepreneurs Through The Power of Web3

# Introduction

The mission of the PropelCrypto Project is to empower entrepreneurs in Africa and beyond by developing decentralized applications (Dapps) aimed at facilitating investments in entrepreneurial ventures globally. This initiative seeks to enhance accessibility to financing for a wide array of entrepreneurs. To realize this objective, two distinct utility tokens have been created to serve as transactional currencies for two corresponding Dapps.

# 1. PropelCrypto (PCR)

This token operates on both the Ethereum and Binance Chains and is designated to power the first Dapp, the PropelCrypto Blockchain Educational Platform. Geared towards entrepreneurs and individuals seeking to familiarize themselves with fundamentals of Web3, this platform is poised to catalyze the widespread adoption of cryptocurrency.
